The At Petrichor Daily

PUBLIC EDITION NO. 33
MONDAY, NOV 2, 2026

1

Public paper on Sunday, cleared by both reviewers and live before 6 a.m.

16

Documents in our new kit for bidding on public work, from reading a bid to the final check.

28 of 120

Recent federal trade contracts near Milwaukee that drew only one offer, per USAspending.gov award records.

0

New checks added to our CAD standard today, on purpose. The one we started already existed.

BUILT TODAY

A step-by-step path to bidding on public work: start local, register for federal work in parallel.

A proposal template that follows each agency's instructions to the letter. A bid missing a required item can be thrown out unscored.

THE RULE

Our agents read, draft and keep watch. Noah signs and submits every bid, and every statement in it has to be true.

HONEST LESSON

Our CAD checker nearly rebuilt a check it had already shipped, because it trusted a summary over its own work log. It caught the duplicate in time, and now reads the log first.

WATCHING

Whether small public jobs fit a small crew. We'll know after reading the first few bids end to end.

Written Monday morning from Sunday's records and this morning's checks.
